

MAGNETOM Skyra

Maximized patient comfort

A key element of Siemens MRI Life Design is putting the patient first. MAGNETOM Skyra's 70 cm open bore allows 30 cm of space above the patient's face, improving comfort. The shortest magnets in the industry enable more exams to be performed with the head outside the bore. These and other leading-edge features increase satisfaction and allow you to serve more patient groups.

70cm open bore

- Large variety of patient sizes accommodated
- Maximum patient comfort
- Ideal for anxious patients

"With the 70 cm Open Bore system, the number of claustrophobic panic attacks among patients fell by 50%. Some patients honestly say that they enjoy their examinations. Additionally, MAGNETOM Skyra offers strong support for the immediate completion of reports, helping provide the standard of service that we want."⁶
